WHAT IS VÖNER?

Vöner started out as Vegan döner. Today, with a variety of products, Vöner is a synonym for plant-based alternatives for meat, which are rich in protein and taste. We believe, that to advance plant-based eating with all its benefits to the planet, people and animals, you need to make it accessible for everybody.

That's why Vöner is all about the taste, easiness-of-use, and laid-back but cheerful attitude. In everything we do, we always ask ourselves: does this taste or look delicious enough? Does it seem easy enough? Does it make you smile and make your day a bit better?

Because, at the end of the day, it shouldn't be a compromise to eat more healthy, as well as planet and animal-friendly. That's the Vöner way. That's how we believe, everybody wins.
